Research and  
Innovation

## What is EURAXESS?

**EURAXESS** is a unique pan-European initiative which delivers information and support services to professional researchers. Backed by the European Union and its Member States, it aims to support researcher mobility and career development while enhancing scientific collaboration between Europe and the world.

EURAXESS delivers on these objectives through four actions:

### ■ **Jobs**

The EURAXESS Jobs portal lists thousands of vacancies for research jobs and fellowships. Posts are available in 40 European countries as well as international destinations such as China, India and North America.

### ■ **Services**

More than 260 EURAXESS Service Centres in 40 European countries provide personalised assistance to help researchers move abroad for work, dealing with issues such as tax, social security and finding accommodation.

### ■ **Rights**

EURAXESS promotes a human resources strategy which aims to improve employment and working conditions for researchers.

### ■ **Links**

EURAXESS Links is a networking service for European researchers working in other parts of the world. It also provides expert help for non-European researchers looking to further their careers in Europe.
